TECHNICAL INFORMATION

Please note that the J-measurement describes the largest diameter of the countersunk - and not the diameter of the hole.

We recommend any of the following screws for mounting:

- Countersunk screws against DIN EN ISO 2009.
- Screws with raised countersunk head against DIN EN ISO 2010.
- Countersunk screws against DIN EN ISO 7046-1.
- Screws with raised countersunk head against DIN EN ISO 7047.
